Covid symptoms

Dear parents/carers,

Research an increasing number is showing that an increasing number of children are testing positive for Covid when they do not have one of the 3 main symptoms. With this in mind, we are asking you to keep your child at home and get them tested if they show any of the following symptoms.

- **Fever or chills**
- **Cough**
- **New loss of taste or smell**
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Thank you for your support with this matter; we are trying our best to keep your children as safe as we possibly can in these difficult circumstances.

Take care

Rachael Bentham
