Norden Community Primary School

SEN Local Offer 2022- 2023

How we identify individual special educational learning needs

When pupils have identified SEND before they start here, we work with the people who already know them and use the information already available to identify what their SEN will be in our school setting.

If you tell us you think your child has a SEN we will discuss this with you and check it out- we will share with you what we find and agree with you what we will do next and what you can do to help your child

If our staff think that your child has a SEN this may be because they are not making the same progress as other pupils; they may not be able to follow instructions or answer questions for example. We will observe them; we will assess their understanding of what we are doing in school and use tests to pinpoint what is causing difficulty. (what is happening and why)

How we involve pupil and their parents/carers in identifying SEN and planning to meet them

¹²We are child and family centred so you can expect "no decision about me without me"

When we assess SEN we will discuss with you if understanding and behaviour are the same at school and home; we take this into account and

work with you so that we are all helping your child in the same way and helping them make progress

Where appropriate we will write and review Support Plans with pupils and parents/carers

We use homework to repeat and practice activities that are new and for presenting a challenge to a pupil

How we adapt the curriculum so that we meet SEN

All our staff are trained to scaffold and extend materials and 'work' so that every child is able to learn at their level We use additional schemes/materials so that we have something at the right level for pupils with SEN. We use Clicker 8 for writing, WellComm for Speech, Language and Communication and IDL as well as a large range of more specific interventions tailored to wards specific pupils.

How we modify teaching approaches

□All our staff are trained in the a variety of approaches which means that we are able to adapt to a range of SEN:- specific learning difficulties (including dyslexia); Autistic Spectrum Condition; speech, language and communication needs; and behavioural, social and emotional difficulties

We use a number of approaches to teaching that support all children and their learning styles. This is evident in the teachers' planning and the delivery of lessons and may take the form of whole class, group or individual teaching.

We have additional schemes and materials available so that we have something at the right level for pupils with SEN. These include Precision Teaching (a daily targeted programme to support with spelling and reading), 'Direct Phonics' and 'Indirect Dyslexia Learning' (daily reading and spelling programmes for dyslexic pupils), Dough Disco and Write Dance (programmes for Nursery and Reception class children), Social Skills programmes (Lego Therapy), QUEST (Writing programme). We also run a number of bespoke intervention programmes across school focussing on Maths, Reading, Spelling and Writing. We also make use of 'Peer Massage' in class where appropriate and we have further developed our use of 'Sensory Snacks' for pupils who present with sensory processing needs.

How we assess pupil progress towards the outcomes we have targeted for pupils. How we review this progress so that pupils stay on track to make at least good progress. (including how we involve pupils and their parents/carers)

We use O Track to assess progress for the majority of our pupils including those with SEN needs. We also may set individual targets within a support plan or EHCP and for those children not accessing curriculum based study we use the engagement model.

Teachers regularly assess pieces of work in pairs and groups to check our judgements are correct (moderating). We have also moderated work with other primary schools in our local area to check our judgements with other teachers

DWe use nationally agreed guidelines on progress to check that this is good enough

We check how well a child understands and makes progress in each lesson. This is done during lessons, through the school's marking system and ongoing assessments.

□Pupil progress meetings with teachers enable the SLT to check the progress of all children each term .These meetings help identify children who are not making expected progress and identify strategies and interventions to help.

For pupils with SEN teachers discuss progress with parents every term or more often if parents or school feel this will help.

What equipment or resources we use to give extra support.

We have made significant adaptations to our buildings in order to ensure that all areas of school are fully accessible to wheel chairs users We use workstations; picture timetables; support for communication; countdown timers for pupils who need it

DWe use lap-tops, I-pads and other assistive technologies for pupils with mobility or communication difficulties

We use a range of software (for example Clicker 7) to help pupils engage with subjects they find difficult; practice basic skills; become independent learners.

DWe use equipment which supports seating and the process of writing: cushions, angled work boards and adapted pencils and pens

What extra support we bring in to help us meet SEN:- services; expertise How we work together collaboratively

We have support from specialist teachers/support staff for accessing the curriculum and extra work on SEND related needs (speech, language and communication; hearing impairment; visual impairment; behaviour related needs; severe learning difficulties; autism) We get support from local authority services such as Rochdale Additional Needs Service.

We also recieve support from

- Speech and language therapy (SALT) to train our staff; advise on strategies and programmes; we refer pupils for assessment if we believe they need a period of therapy
- Occupational therapy for pupils who need assessment
- Physiotherapy for pupils who need it
- Educational Psychology Service for pupils who need specialist assessment

^CTogether we review the pupil's progress; agree what everyone will do to make teaching more effective learning easier and our target for the pupil's achievement; how we will work together; what we will each do; at an agreed date will review how well the pupil is doing and if we are making difference, and what we need to do next. We include the pupil and the parent in these discussions

What other activities are available for pupils with SEN in addition to the curriculum

We have a large number of before and after school activities. Currently, pupils with SEN are included in a range of clubs e.g. Choir, Athletics. The majority of clubs are run by school staff who have a full working awareness of the needs of the children in school and of those attending these clubs. We have regular educational visits throughout school, and residential visits in Years 5 and 6. Pupils with SEND are always included in these. We provide additional staff to support their full involvement and ensure that full risk assessments are completed. We choose visits that are accessible to all We liaise closely with the parents/carers of a child with SEND before the visit to ensure that all needs of their child are met when on a visit outside of school

How we support pupils in their transition into our school and when they leave us

□Staff prepare a transition book with a child with SEND when they move between classes where appropriate. This has photos of their new class staff, the classroom and other key areas e.g. the cloakroom. The child can share this with their families during the summer holiday before they move classes. □Nursery and Reception staff liaise closely with the parents/carers or new children moving to our school and will, where possible, arrange to meet a child with SEND in their current setting e.g. playgroup or private nursery.

Staff will support children with SEND as they move to High School- liaising closely with parents/ carers, helping to support additional pre-visits to their new school, making a transition book if needed, linking closely with key staff at the new school e.g. Special Needs co-ordinator, Head of Year 7 and will ensure that all SEN records are passed on to the next school

We fully support parents in making decisions about the High Schools they choose for their children and work with them to ensure the transition from KS2 to KS3 is smooth.

DWe invite all High School transition co-ordinators into school to meet with any children with SEND.

Visits to High school are encouraged and supported where necessary

How additional funding works

Schools receive funding for all SEN pupils and they provide what pupils need from this (including equipment). The local authority may contribute to very expensive items. Eg. Lifts

If a pupil's Education Health Care Plan identifies something that is significantly different to what is usually available, there will be additional funding allocated. Parents will have a say in how this is used. You will be told if this means you are eligible for a personal budget. This must be used to fund the agreed plan.

Where pupils can get extra support

□Your views are important and it is important that people listen to them and that you are satisfied with what happens. □All pupils know that they can talk to their class teacher, other staff in school or the Deputy Head teacher and Head teacher if they have any worries □The Youth Service provide support for young people with SEND so that their voice is heard (<u>www.youthservice@rochdale.gov.uk</u>)

Where parents/carers can get extra support

There are a number of parent support groups: HYM (CAHMS) and Speech Therapy run support groups for children with Autism Spectrum conditions The Parent/carer forum is called Family Voice. This is an umbrella organisation for all organisations in Rochdale. They can provide information, training and support. They are involved in policy and decision making at the level where we are working on all things at 'Rochdale' level. (http://www.theparentforum.co.uk)

What to do if you are not satisfied with a decision or what is happening (for parents)

□Your first point of contact is always the person responsible – this may be the class teacher; the SENCo (Lorna Hexter) or the headteacher (Rachael Bentham). Explain your concerns to them first. If you are not satisfied that your concern has been addressed speak to the head teacher then ask for the school governors representative.

If you do not feel the issues have been resolved, we will work together to ensure the best possible outcomes for your child

If your concern is with the local authority, follow a similar path. The person who will log and track your complaint is: Lorna Hexter or Rachael Bentham The local authority has a panel of senior managers who consider unresolved issues – we call this the Escalation and Resolution Panel. They will offer you an independent mediator if you are still not satisfied. This person will act as a mediator in a meeting with the person you need to reach an agreement with

The SENDiass (Parent partnership) Service provide independent information and advice (<u>http://www.theparentforum.co.uk</u>)
